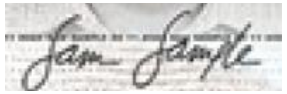
Alberta

MITSUBISHI HC CAPITAL CANADA

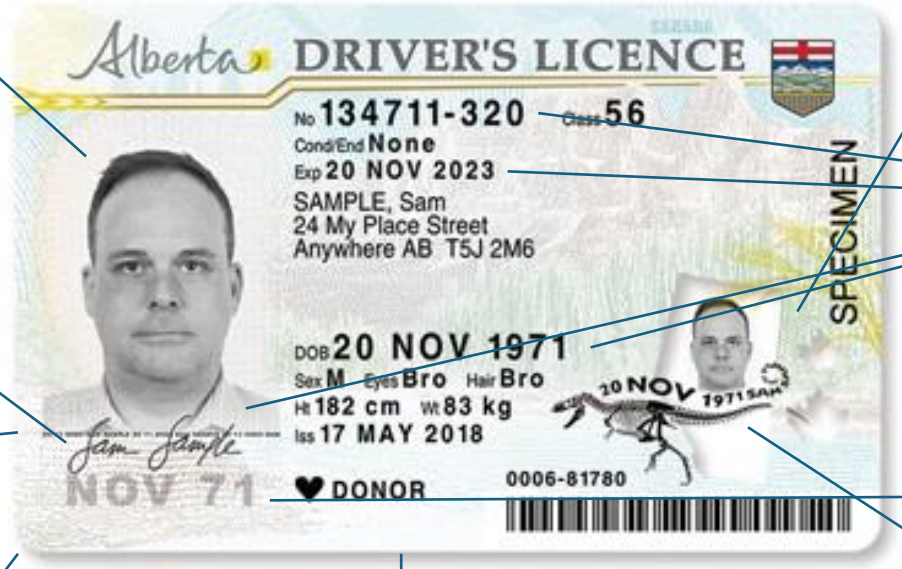
High-definition photo is laser-engraved over the printed background, so fine lines run through the photo.

Rainbow Printing - gradual transition of colour from one part of the card to another. The colour transition is difficult to scan and replicate.

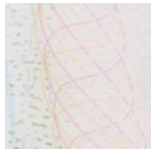
Three transparent windows — one in the shape of Alberta, which contains a smaller size photo, and two in the shape of maple leaves. Photo placement is precise and can be seen from both sides of the card.



Signature matches and overlaid on primary cardholder picture



Raised text - the raised text on the driver's licence number, date of birth, date of expiry and signature. The data is engraved into the core of the card, making it difficult to alter or replicate.



Clear laser engraving- Feel the clear lettering (date of birth and sex) to the left of the photo.

"Ghost" date of birth- security background is visible through the characters of the birth month and year.

Alberta shield - embossed Alberta shield can be seen and felt in the lower part of the clear window.

Surface embossing - fine line pattern covers the front surface of the card, which can be seen and felt. Graphical details in the pattern include the Alberta signature, the Alberta provincial shield, the seal of the Registrar of Motor Vehicle Services and wheat graphics.

Albertosaurus image- placement of the dinosaur is precise in relation to the Alberta window, the tail appears to travel through, in perfect alignment from front to back. It is raised above the card surface. The graphic is laser-engraved to create a 3D effect

Quebec

MITSUBISHI HC CAPITAL CANADA

Driver's licence produced as of July 13, 2023

- High-definition black and white photo with the Presence of wavy lines running through it.
- Tactile engraving, particularly of the date of birth
- Optically variable ink (shifts from gold to green depending on the angle and lighting), especially at the level of the fleur-de-lys
- Ensure all labels and fields are in French as per Quebec standards
- The expiration date corresponds to the date of birth
- In Quebec, a driver's license number typically follows the format A####DDMMYY##, where:
    - A: The first letter of your last name
    - ####: Four digits, encoding your last name
    - DD: Day of birth
    - MM: Month of birth
    - YY: The last two digits of your birth year
    - ##: Two digits, representing a check digit

MITSUBISHI HC CAPITAL CANADA

Details To Be Validated by Sales Team

For All Provinces

MITSUBISHI HC CAPITAL CANADA

1. Raised Lettering
   - Text (e.g., license number, DOB, expiry, signature) should be tactile and slightly raised
   - Engraved into the card core for tamper resistance
2. Holographic or Optically Variable Elements
   - Look for holograms (e.g., trillium, fleur-de-lis, Alberta shield)
   - Color-shifting ink (e.g., gold to green) depending on angle
3. Ghost or Secondary Photo
   - Present on most cards; may include DOB overlay or signature
   - Should shift or remain static depending on card type
4. Tactile Surface Checks
   - Feel for engraving, texture, embossing (e.g., Alberta's surface embossing, QC's tactile DOB)
5. Visual Inspection
   - Check for irregular fonts, color inconsistencies, tampering, or damage
6. Card Quality
   - Confirm polycarbonate material, proper thickness, and durability
   - Some cards produce a "tinny" sound when dropped (e.g., older BC cards)
7. Barcode & Data Alignment
   - Ensure barcodes & magstripes match printed data
   - Check for machine-readable zones (e.g., Enhanced BC cards)
